PREFACE

The collector of this rare and beautiful cabinet of coins and medals, Henry L. Jewett, was born in Granby, Hartford County, Conn., the 29th of August, 1821, and died in Macon, Ga., the 28th of January, 1897. He went to Macon, Ga., when but thirteen years old, where an elder brother had preceded him, and with whom in his earlier life he was associated in business. His long life work was marked by the highest standard of business integrity in mercantile, banking and railroad pursuits. In educational matters and in church work he took an active interest and by his noble, generous and stainless life left an impress on the minds and hearts of all with whom he came in contact.

In early boyhood he developed a fondness for history and the collection of old coins, and, as success in business warranted, added to his cabinet, until at his death it comprised one of the finest general collections of coins and medals to be found in any private collection in America.

This cabinet of the old and modern, of the quaint and beautiful, of the artistic and crude unfolded a flood of light of the world's coinage and history, that in his leisure moments was an unfailing source of interest and intellectual enjoyment.

This valuable collection of rare beauty and excellence and selected with the greatest care after years of patient historical research in its accumulation, is now offered for sale at auction.

It contains representative coins of every period and nearly every country in the highest state of preservation; in fact, as I finish the catalog, I feel as though I might have written a general condition of the collection, that "all the coins are in the highest state of preservation unless otherwise mentioned," the exceptions would be so few. Mr. Jewett did not complete any series, but amongst the coins, in the Greek series, are a beautiful half stater of Hiero, octadrachms in gold of Ptolemy I, II and their queens; some 32 Roman gold coins; in the English series a gold ryal or sovereign of Queen Mary, £3 of Charles I, pattern £5 of Victoria and the rare Scotch £20 of James VI; and the coins of Germany form a splendid representative series especially rich in the coins of Brunswick and Lunenburg, including multiples of the thaler from 3 to 10 thalers; (in the German series are no less than 13 pieces above the double thaler); in the

PREFACE.

United States series of gold, all the years of the eagle from 1795 to 1804, and in the half eagles the rarities 1821, 23, 24, 25, 30, 31, 33, and in the quarter eagles the 1796 and 1802 the finest known, and the rare proofs of the \$3 of 1865, 73, 75; in silver, 1794 dollar, very fine; 1796 and 1797 half dollars, 1792 disme in silver, unique; and some fine cents and half-cents.

I would call attention to the recent foreign coins for the perfection of their condition. They cannot be picked up in such state. Mr. Jewett had correspondents who at his request obtained for him perfect, uncirculated specimens.

I have arranged 13 plates quarto size, 7x9, of the most important pieces which will furnish a general view not only of the collection but of the coinage of the world, and should be of interest to the collector of even a single series.

The plates contain the following:

- Plate I. Ancient Greek and Roman Gold.
II. Ancient Greek and Roman Silver and Bronze.
III. English Gold Coins.
IV. England and Holland, Silver Coins.
V-VI. European Gold Coins.
VII. Brunswick, 10, 6, 5, 3, 1 thaler.
VIII. European Silver Coins.
IX. Colonial and State Coins; including Mass. shilling, Lord Baltimore sixpence; New York, 1786 NON VI VIRTUTE VICI and 1787 NEO-EBORACUS, etc.
X. Rare Washington Medals.
XI. United States Gold Coins. Including Mormon and Bechtler \$5.
XII. United States Silver Coins.
XIII. United States Copper Coins.

I guarantee all the coins and medals genuine and original, unless otherwise described.

Before the sale I shall be most willing to afford collectors any further information desired.

I will faithfully execute all orders entrusted to me for the usual commission of 10 per cent. on the amount purchased.

Very respectfully,

DIMES.

<i>Elder</i>	<i>280.-</i>	1605	1792	LIBERTY PARENT OF SCIENCE & INDUS. Female head l., hair flying loosely as if blown by the wind; beneath (1792). Rev. UNITED STATES OF AMERICA. Eagle flying three-quarters l. with head turned back to r.; below, DISME. Border of serratures. Edge milled. Size 14. Wgt. 66 grs. Very fine, but date erased and also portion of field in front of chin scraped. Faint trace of the 7 and 9 still discernible. The only specimen I have ever known of; but after diligent inquiry I learn of only one other in the collection of Mr. Brand. Though the specimen has suffered a regrettable damage, yet when the piece is so rare this damage sinks into insignificance. A regular United States coin of which only two specimens are known and a few proofs in copper! How this surpasses in rarity, interest and value coins that have brought great prices within the past three years! Plate XII.
